

**IN THE CLAIMS:**

Claim 3 is amended herein. Please note that all claims currently pending in the referenced application are shown below. Please enter these claims as amended. Upon entry, this listing of claims will replace all prior versions and listings of claims in the application.

**Listing of claims:**

1. (canceled).
2. (Withdrawn) A transformed plant, from which the DNA flanked by site-specific recombinase recognition sequences has been removed according to the method of claim 10.
3. (Currently amended) A method for transposing a transposon that does not have a transposase, wherein the method comprises the steps of: using *Agrobacterium* to introduce a transposase-encoding- an FLP-encoding DNA into a transformed plant that comprises the transposon having no transposase, and transiently expressing the transposase.
4. (Original) A transformed plant, from which the transposon that does not have a transposase has been transposed according to the method of claim 3.
5. (Withdrawn) A transformed plant which is an offspring or a clone of the transformed plant of claim 2.
6. (Withdrawn) A reproductive material from the transformed plant of claim 2.
7. (Previously presented) A transformed plant which is an offspring or a clone of the transformed plant of claim 4.
8. (Previously presented) A reproductive material from the transformed plant of claim 4.

9. (Withdrawn) A reproductive material from the transformed plant of claim 5.
10. (Withdrawn) A method for removing a DNA sequence flanked by site-specific recombinase recognition sequences, said method comprising:
  - introducing into a transformed plant comprising DNA flanked by site-specific recombinase recognition sequences, with *Agrobacterium*, a DNA sequence encoding a site-specific recombinase, and
  - transiently expressing the DNA sequence encoding the site-specific recombinase,
  - so as to remove the DNA sequence flanked by the site-specific recombinase recognition sequences.
11. (Previously presented) A reproductive material from the transformed plant of claim 7.
